Firdaus nagar Hussir

kanke, jharkhand

Summary

B.Tech student of Computer Science and Engineering proficient in CPP,Java,Python,Git and Linux, a 3-star competitive programmer on Codechef.

Experience

AWS Solutions Architect

DevOps Engineer

- Deploying webserver on AWS using Terraform.
- Networking in AWS
- AWS to provision new machines for clients. S3 Storage Services on AWS.
- Created and maintained user accounts in RedHat Enterprise Linux(RHEL) and other operating systems
- Implementing a Continuous Delivery framework using Jenkins.
- Run GUI commands on Docker using Dockerfile.
- Used Kubernetes to orchestrate the deployment, scaling and management of Docker Containers.

Development

Docker Website Configuration

11/2021 - 11/2021

In this Project I had pulled Docker image of Alpine. Configured a webserver (NGINX) and hosted website. The website file is sent through my local computer and port 8080 is used for hosting.

House Price Precition Using Linear Regression

Machine Learning

03/2022 - 03/2022

I had used House price prediction using linear regression.

Data was used from kaggle.com and scikit is for this project.

First I have to check if Given data set was clean aur have no null values. Then by using my analysis I found that this problem is based on linear regression so I tried scikit of python packages. and implemented Linear regression

Database Designer

SIH

Our team of 5 have participated in Smart India hackathon.

in this hackathon our team have selected for next level competition

in first level we need to showcase our idea and in another level we have to show them our working model.

CRUD WEBSITE

Created a crud website using python and fastapi.

Designing and Manufacturing of Robo car

Robotics Club

01/2020 - 02/2020

- Design of Car and implentation by which we got second prize

Manufacturing

Science Project

- We work as a team and made a clean energy.
-

Skills

AWS, Git, Terraform, linux, NGINX, Tomcat, Networking, Docker, Kubernetes, Java, Python, SQL, Devops, C, C++, Jenkins

Education

Computer Science

Silicon Institute Of Technology • Sambalpur, Odisha

08/2019

I got CGPA is 8.8 in graduation I am one of the student council member in college. I am also volunteer of coding club. I was also included in the scholars club of my college.

Languages

English, Hindi
